A house party of young people came o a sudden end by the drowning of Miss Lena Blackman, of Torrington, at Highland lake, near Wipsted, Conn., yesterday. For Liquozone-Yet We Give You a 50c. Bottle Free.

This Company, after testing Liquozone for two years in the most difficult germ diseases, paid \$100,000 for the American rights. That is by far the highest price ever paid for similar rights on any scientific discovery.

We publish this fact to show you the value of Liquozone. Men of our class don't pay a price like that save for a product of remarkable worth to humanity.

Kills Inside Germs.

The reason for that price is this: Liquozone alone can kill germs in the body without killing the tissues too. Nothing else in the world is so good for the human body; yet Liquozone is a germicide so certain that we publish on every bottle an offer of \$1,000 for a germ that it cannot kill.

Liquozone destroys at once and forever the cause of any germ disease. And there is no other way to do it.
